WEATHERGARD II WINDOWS

YOUR HOME IS WORTH IT.

WeatherGard II Vinyl Windows

LAS WeatherGard II Vinyl Windows are custom-built double-paned glass windows that exceed all ENERGY STAR™ rating requirements. Manufactured from virgin vinyl and reinforced with steel and aluminum, they are durable, easy to clean and virtually maintenance-free. WeatherGard II replacement windows are custom-fabricated in order to provide a lasting fit. Options are available.

- Low E Glass (PPG's best performing "E" glass)
- Argon gas-filled to provide further insulation value
- ENERGY STAR™ certified
- Exterior noise reduction
- Triple lined felt for increased insulation value
- Over 50' of felt to seal out air flow
- Interlocking meeting rail sashes to prevent air infiltration
- DP ratings vary from DP-35 to DP-55 depending on window style and size

Custom made to fit your specifications.
